In 2008, TVNZ News identified a need to upgrade and modernise the One News set. The new set was to be used for a number of different shows and as a result needed to be adaptable.

VideoPro integrated 21 PDP panels into the TVNZ One News set. The design features three video walls; a large 5 x 3 configuration behind the main news desk and a further two smaller 2 x 2 and 1 x 1 configurations behind the sports desk.
